If you guys know of better and/or less expensive products please tell me.

I have a usb mouse, keyboard and midi patchbay.

These all need a 25'-40' run. I also plan to eventually run 4 DVI about the same distance.

These are the products I'm looking at for usb:

<http://www.tigerdirect.com/applications/SearchTools/item-details.asp?EdpNo=2893288&CatId=444>

or if that won't be stable, this is lots more money:

[http://www.gefen.com/kvm/dproduct.jsp?prod\\_id=2218](http://www.gefen.com/kvm/dproduct.jsp?prod_id=2218)

These are the long run DVI products:

<http://www.tigerdirect.com/applications/SearchTools/item-details.asp?EdpNo=2815509&CatId=79>

or:

<http://www.tigerdirect.com/applications/SearchTools/item-details.asp?EdpNo=1643055&CatId=1163>

I was hoping for a less expensive alternative. My existing USB extension (\$30) is suspect. I lose my midi patchbay within Cubase at least once in an 4-8 hour session. Often times the computer locks up too.

Any other ideas folks?

Tom
