I have PARIS EDS cards and the EmU 0404 for Proteus X in stalled on my PC.
Needless to say . . . I'm having conflict problems. I've already tried
re-formatting the disk (I've troubleshooted that far) and re-installing XP.

Please Advise!

Peace,
Bugsy

I have EMU Emulator X (1212 card) on the same computer with Paris,
and it o`key working, try to check out IRQ of your cards, may be that`s =
the reason of conflict!... 8-)
Good Luck!
