has been reliable and sounds great. It's one of my  
Rube Goldberg boxes and it RAWKS

The first FX processor in the box is a Lexicon Core 32 system. It is a full  
length PCI card that has analogue I/O ADAT sync input, WC input, Optical and  
coax SPDIF I/O. I have it configured to work as a standalong FX processor  
patched into Paris auxes or inserts. It has a daughtercard that runs a pair  
of what they refer to as PC90 reverb processors. As I understand

So with that in mind...I intended to type Mackie C4 not 2.  
And your welcome to visit anytime your in VA.

Steve

Please email me as I don't get time to look at the newsgroup as often as  
I would like.

Changed (wife) his mind. So here it is again:

- 1 - Black Face MEC/ C-16/EDS1000 - Make serious offer.
- 1 - Blue Face MEC/ C-16/EDS1000 - Make serious offer.
- 3 - input cards - 200 or serious offer.
- 1 - adat card - 300David.....are we still on for that EDS card and ADAT card? Let me know.

Thanks,

DJ
