I have an entire Paris system sitting in my garage in the original boxes. Has the MEC uni and 8 inputs, 8 outputs. Everything in tact, all software...and a computer with everything installed as well. I shut down my studio about a year ago and the Paris has been sitting dormant ever since. I'm looking for a new home for it. Anyone interested or know of someone looking for one? Thanks... purplebandalero@yahoo.com

Michael, I'm interested in the unit, how much are you asking for it?
