Subject: Error 18/12
Posted by danielcornelius on Sat, 04 Jul 2015 15:08:46 GMT

The Error 18/12 comes very often this days at my 3 Mec System.
Someone knows how to debug it ?
What is my Problem ?

Window appears with this message :
Error in initializing Paris Engine. Error code 18/12

Cannot find something in ParisWiki. I have open up a ParisWiki column with error 18/12.
