EBay is going to ding me for 6% to sell these so I figure I'll make these available here one last time at lower prices before they go on the block.

Matched pair of Neumann KM184's. Minty fresh. Black finish. I've owned these since 1998. They are wonderful.....they are also redundant here now and need a good home. They come in the original cherrywood Neumann logo'ed box with windscreens and the original clips. - \$1100.00

2 x Claytorbuilt Mojave MA200 precursors. See previous post from a few days ago for description-\$400.00 each

2 x AKG C460B/CK61 SDC's. come with cases and mic clips.-\$300.00 each

Matched pair of Rode NT5's in flight case with all the factory goodies-\$250.00

Studio Projects C-1 - comes in flight case with shock mount=\$125.00 "mint condition"

Studio Projects C-1-no case or shock mount-\$90.00 "mint condition"

Sony MU-R201 true stereo reverb/delay/FX \$100.00

Get e'm while they're still gettable.....

;o)
