> By the way, I'm part French and I am no longer proud of it!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
>I have two mecs and one 442.
Here is my situation...
When I use the two mecs with external wordclock they work fine.
Mec1 at A and mec2 at D (4 cards)
When I put a 442 (without the housesync in paris cfg) then I don't get the
ins/outs of 442 to work.
When I put the housesync then I get 4
