I received my copy of Sarah's CD yesterday!

Wow!!

Sarah, You are quite the writer/musician. I haven't enjoyed a CD so much in years.

Very original songs and style, great instrumentation, musicianship, production, well honestly, I can't find one thing I don't like about it.

Superb quality. I know you recorded this using Paris but did you record this at a studio? The acoustics sound great.

I hope when you get some time you'll share some of your production notes.

Room, mics, pre's, guitars, amps, etc.

Very Nice Job! If you ever play anywhere near North Carolina, please let me know. ;o)

Your newest fan,

Paul

Oops, spelled Sarahtonin wrong. Duh!

BTW, what kind of bass are you playing?

Hi Paul,

Thank you very much for the compliments. We're pretty happy with =
it, too. I'm really glad we decided to go with the lyric booklet, too. =
That came out better than I expected.

The studio is a tiny basement studio, carpeted concrete, purple foam =
glued all over everything. The "control room" is about the size of a =
small bathroom, and the recording room is a long narrow thing, like a =
small one-car garage. Let's see . . . Mackie 1604 mixer; monitors =
Mackie HR824 and Auratone monitors; DBX 576 tube preamp/compressor; =
microphones -- 1 AKG C414 BULS, 1 AudioTechnica Pro37R, 2 Shure 849, and =
a big pile of Shure SM57s. The poor 414 gets used on everything, even =
the kick drum.

Guitars: custom Thinline Telecaster, Tokai Stratocaster, & 1969 =
Gibson SG standard, and a Taylor 414K acoustic. Richard did all the =
hot leads on my old SG. The bass is just some old Ibanez copy of a =
Precision. All were recorded with Pods, except the Taylor, of course, =
which was the 414 at the neck and the AT Pro37R at the bridge. I =
couldn't tell you how we recorded the drums because we never did it the =
same way twice. I think there were nine mics, though. :)

I cain't think of nuthin' else, but if you have specific questions, =
I'll try to remember. Oh, it was mastered in Wavelab v3 with Native =
Ultramaximizers and things.

I'm so glad you like it. We're working on number 2 now. Hopefully =

it won't be interrupted as often by deaths, surgeries, floods, etc., =
and we'll get it done faster.

Peace,

Sarah

PS: Here's a glimpse of the studio w/ "lil" Sarah, and a glimpse of my =
favorite guitar.
