-----090906070505070201070104--Thanks Edna... I'll try that. I seen the normalize button,
but was unsure
how it operated. In fact, I wished I known this option a few days ago...
would have saved me lots of time. I was trying to remix/remaster some older
projects and songs.. and it was very time consuming to individually adjust
each channel. Thanks again... :)

Jef,
Neat looking axe!
Tom

"jef knight" <thestudio@allknightmusic.com> wrote in message =
news:43b9646c@linux...

Well this year my wife Nina really outdid herself. Based on the =
premise=20
that my band is Chrome and the handle is pretty cool, she surprised me =

with an Ibanez Gem with a rock mirror finish. Gotta say, of all the =
axes=20

I have this one plays like a dream come true for me because of the =
super=20
flat neck. it's also very wide, wider than my Tanglewood acoustic, so =
l=20
can fingerpick on my electric with some semblence of accurace for a=20
change...lol

>I fixed this by going into my ME networking and setting up a the drives to
access using a password. I have no idea why it should need this now, but
it's just a small thing and it's working now so I'm not gonna worry about
it. pita though.
