## Subject: Replacing fan in Mec with silent one Posted by RGPJ on Thu, 26 Oct 2017 01:53:02 GMT

Hello Paris users!!

I was wondering if anyone has ever replaced the fan in the Mec, and if so, what might you recommend?

Or perhaps just disable it? It's too loud. I only have one card, an 8 in. (Would like an 8 out but those are hard to come by I guess).

Thank you!!
