Sunny and about 40 degrees here on the western slope.

Have a good one.

Pt things start to get a little finicky for hot mixes. But, if you stay in the -3db on the master fader, then you should be fine.

Sonar.. Nice plain jane sound. Very vanilla. Just right for those who do not want a sonic imprint on their tracks. I got these off the group about 4 years ago from a fellow Parisite and they still amaze me to this day, I listen to em every year. Does anyone remember who recorded these? I know they were done in Paris.

ftp://xmas:xmas@156.34.14.36:21Paln.. Plans.. !! This is my Dream Setup . The Dm2K has been on to get list for 2006 along with PT.. This setup allows me to styl control Paris as well. Nice , very very sweet...LaMont
