I've just put a default email in the web posting facility of "not@required.anymore" in order to prevent the frustration of people having to put email addresses in all the time.

I seem to have botched the colors on the post page, but I imagine it's a step forward anyhow. :o)

Cheers,
Kim.

It seems to only work on the post page, not the post response page...

Cheers,
Kim.

Hey Kim, it looks like you lost the name box also. Was that your intent?
