Hi, does anybody have a solution, I tried to import a 16 bit wav stereo file, original was 54 meg, but paris just import 144k as stereo file. I've got sound from the snip, but how do I get the rest? anyone who knows?
Thanks
Chris B

StripWav it.
http://www.brothersoft.com/mp3_audio/rippers_encoders/stripwav_575.html

Once stripped, then you can bring it in as a stereo import into dual mono.

Thanks Aaron
It worked perfect!
