
Subject: Paris software CD shot to heck

Howdy!

I'm back in the saddle after some serious illness issues again.

Had some problems with my Paris installation, decided I needed to reinstall.
But my Paris CD-ROM is shot. It's not my burner/player, I've tried other
CDs. I guess I should have backed it up. I'm a dummy, big time.

Any ideas?

BTW, what the heck is a Reaper?

Jimmy
