He wrote the software program that MRI machines are using these days. Very
interesting guy. I'm mastering a project for his wife.   He was pretty
interested in the Paris program. His wife is pretty well known in the LA
music community and he digs this stuff. I may ask him if he could write a
delay compensation applet for Paris. He really got a chuckle out of
Frankencomp.......said he's built a few similar monstrosities himself. They
will be back over here tomorrow night.

;o)
