Here are some freebees. There room analyzers, convolution software for modeling, comps, and even development tools. Chuck Duffy might want to check out the development tools. Anyways, here they are, may be you could post some of your finds!

<http://hometheatershack.com/roomeq/>

<http://teragon.org/>

<http://teragon.org/products/Convolver/index.php>

<http://convolver.sourceforge.net/>

Get it while you can!

Smarrt v6 beta for PC and Mac
