Everything is in perfect condition. Anyone who has been here in the last 7 years knows I have had very stable systems and know how to take care of this stuff.

So vouch-post or buy.... I'm good either way. I'm taking offers before setting prices and anything that doesn't move quickly here will go the ebay route.

x@avidrecording.com where x = mark. I had the best luck selling mine as separates. If you don't get quick responses you might consider that route also.

EDS card, C16, etc. good luck

JohnHi, if you decide to part-out, I can go \$75 + shipping for an EDS card.
