Does anyone have a freq response graph of their mixing room (measured from the listening position)that they could share?

I would be interested in seeing some comparisons.

I don't have mine with me , but I will post it later.

Thx

Hi Brandon,
This is something I would like to do, what did you use to make this?
Edna

forgot to add that you need to use white, brown and or pink noise for
the measuring...sorry.
