I've decided to part with the greater portion of my Paris Rig.

Here's what's available:

- (2) EDS-1000X (including interconnection cables)
- (2) C16 (recently cleaned, so the rotary encoders all work well)
- (1) MEC & scsi cable
- (2) Analog In Cards
- (1) Analog Out Card
- (1) ADAT Card Blackface
- (1) ADAT Card Blueface
- (1) IF442 (provided I can get my IF 2 to work)

I figure street prices are around \$150 each for EDS, and expansion cards, and \$50 each for C16's and MECs.

The whole bundle would be worth \$1200 at these prices, but I'd be willing to let it go for \$900 + shipping from Ottawa Canada if bought as a whole.

I'll give 2-3 weeks to see if anyone's interested buying the whole thing, and if not, then I'll part it out.

Cheers

Kris

I've decided to sell as parts...I'll start a new thread for it.

\$150 each, for EDS Cards, and MEC expansion cards
\$50 each for IF442, MEC or CS16's

Buyer pays for shipping from Ottawa Canada.

Cheers

Kris
