Hi Tracy - yep, that's legit, that's long-time NG member and PARIS software genius Mike Audet. Those drivers just bought us *years* of future use out of PARIS, and we're in awe.

And the fun isn't over yet - Mike reckons he'll have ASIO drivers in the works soon (I'm not afraid to say "soon" any more) and as you can see the Reaper stuff is going to be pretty cool as well. See my reply in the "project" NG too.
