Subject: Fairwell All........
Posted by Nappy on Sat, 22 Mar 2008 06:43:07 GMT

I've had a long run here,but I think its time for me to say goodbye. Since
I no longer
own PARIS and I don't care to talk about politics and religion I'm moving
along.
All the best to everyone. Life is to short.

respect
Nappy

Well if there was a new Paris, we would have more to talk about.

You take care and be well.

DC

I thought this was the Cubase SX news group? Just kidding! Hey Nappy!, we
just get bored from time to time, don't mind my stupid stuff. We talk about
everything here now, so if you have a good subject post it. If it's about
a DAW, definitely post it. We can always talk audio.

You have friend here. People here care about you and genuinely care about
you. Your one of the last Paris Mac resource here, we need you to contribute.
 Take a break if you must but don't say goodbye forever.

Sorry to hear, Nappy. Yes, the site has changed but it didn't died with
Paris, just that lifefull peoples here had to find "new" things to talk
about, just staying alive. For me, to meet all these beautiful people here
with our writings up against the years, since Chuck gave the Parissite life,
have been and is an honour. It's people like you and the other long
travellers here, staying out long with each others good and bad behavings
and meanings, that's giving a world a better life.

Take care Nappy and yes, the life is too short to not take care of people we
have got good feelings for. So I believe it's not your last words here
anyway, with or without Paris.

Respect
Erling

Hi Nappy,

This is a sad day. I'll miss seeing your name on the newsgroup.

Is there anything we could do to get you back in the PARIS fold? I'm steadily working my way through the first hall algo from the DP/Pro. There is another one after than, and then I want to do the plates. Could we coax you back to PARIS for the effects?

All the best!

Mike

Love to hear about your reverb workings, Mike. Really interessing if you can get the sweetness out of those algoes, with lesser use of EDS power.

Erling
