Subject: Anyone interested in relabeled C-16 controllers?
Posted by Doug Wellington on Wed, 11 Apr 2007 02:01:12 GMT

Since I've been doing a bit of industrial silk-screening lately, it might be
fun to make a screen up to redo the printing on the black C-16's to make
them the same as the blue "pro" model controllers. How many people would be
interested in that?

Doug
