>Hello PARIS community. I have been a PARIS user since 1998. I am selling some of my PARIS gear. Here is what's for sale:

1 8 in card \$275 + Shipping (OBO)

1 8 out card \$275 + Shipping (OBO)

1 MEC \$100 + Shipping (OBO)

1 EDS-1000 \$150 + Shipping (OBO)

I will include the MEC/EDS connectivity cable & standard power cable for MEC. I think I also have the original box for MEC and EDS card. All gear is in great shape and used only in my non-smoking studio. If you are interested or have any questions e-mail me at djinc@cox.net.

Thanks!

-David JohnHi there,

Paris system 4 sale in OZ including-

EDS card

1x 8 in card

1 x 8 out card
1 x ADAT card
MEC
CS16
All cables
version 3 software

Good condition \$1800 Australian D

ollars

Thanks,

JustinLarry, would this card work ok to push Paris signals in / out of a 2nd PC hosting VST plugs with WinXP?

AA

Nuendo 1.6, connected to another PC running Nuendo 3, using the ADAT ports of a MOTU 828 II, and it worked perfectly, if that helps any. I soon realized that I am not DJ, and don't need the multi-PC nightmare, and relegated the 2nd PC to office duties, freeing up this card. Like I said previously, there are only 2 TOSlink connectors on this card, but the driver/control panel allows for internal sync, or sync to ADAT input, if necessary.

Hope that helps,

Larry Upton
