my rig to just fiddle around and really just used it
for 1 session. I know some of you all my already feel, "damm what a sob-ass
bs story" but it's true. What I have left is 1 eds card and 1 m

>Hello PARIS community.  I have been a PARIS user since 1998.  I am selling
some of my PARIS gear.  Here is what's for sale:
1 8 in card  $275 + Shipping (OBO)
1 8 out card $275 + Shipping (OBO)
1 MEC       $100 + Shipping (OBO)
1 EDS-1000   $150 + Shipping (OBO)
```

I will include the MEC/EDS connectivity cable & standard power cable for
MEC. I think I also have the original box for MEC and EDS card. All gear
is in great shape and used only in my non-smoking studio. If you are interested
or have any questions e-mail me at djinc@cox.net.

Thanks!

-David JohnHi there,

Paris system 4 sale in OZ including-
EDS card
1x 8 in card

1 x 8 out card
1 x ADAT card
MEC
CS16
All cables
version 3 software

Good condition $1800 Australian D

ollars

Thanks,

JustinLarry, would this card work ok to push Paris signals in / out of a 2nd PC
hosting VST plugs with WinXP?

AA

Nuendo 1.6, connected to another PC running Nuendo 3, using the ADAT
ports of a MOTU 828 II, and it worked perfectly, if that helps any. I
soon realized that I am not DJ, and don't need the multi-PC nightmare,
and relegated the 2nd PC to office duties, freeing up this card. Like I
said previously, there are only 2 TOSlink connectors on this card, but
the driver/control panel allows for internal sync, or sync to ADAT
input, if necessary.

Hope that helps,

Larry Upton
