When Kelly Clarkson is at her best - like on the studio version of "Sunce U Been Gone", she fuckin' rocks solid and is one of the best female singers out there... but otherwise (like in this video) she come across as just another chubby chick with a microphone.

everyone support over the years is appreciated. hydrorecords.com was recently nominated for the Boston hip hop awards and lost to a deserving bostonrap.com. I figured since I've lost interest in the site that this is my chance to go out on top :)

Anyway, hopefully people should find their way here for PARIS support. Hey theres only like 300 of us anyway.

Sometimes a song just kills me. Garth Brooks - The Dance for example.

Cool. I haven't really checked out much of her work. I thought she had a couple badass songs I've been exposed to. I seriously loved her duet with RF. Definitely chubby but I thought her timing on the beat was killer.
