I'm looking at picking up a 4x12 to club gig with. Anybody got experience to share with me about these models??

Is there 'really' a \$1000 dollars worth of difference in tone from bottom to top with them, is it mechanics (like say, casters and handles)?

I will be driving it with a 60wpc tube amp with a tube preamp front end. I want the elusive 'brown sound' distortion and super clear cleans... which the amp/preamp combo is certainly capable of giving me. It's the cabs that suck on my current gear (2 unmatched 2x12's) - I wish to move to one stereo matched cab, and I'm not afraid to rewire it if that matters.

Many thanks in advance!
