A couple of years ago you provided me the name of "the guy* in New Jersey for Ampeg repair. I've lost the name. I need to send him some \$\$.

Thanks,

Deej

Last time I checked --

Dennis Kager

Central Jersey Music Service
1627 Route 27
Edison 08817
(732) 572-1911

Dennis worked in the Ampeg factory in Linden, New Jersey as quality control specialist and Service Manager and very well may have had his hands on your amp once before. Dennis asks, though, that you not call him about parts--he doesn't have the tremolo modules, grille cloth, logoplates, etc. that might be missing or damaged on your amp. "these parts were tough to get before these amps became antiquity," So don't call him for parts, but if you can get your amp to him, you probably won't find better service. He also designed amps for Pignose and Sundown Amplifiers.

Say hi for me - Dennis is one of the good ones.

;o)

Thanks Gene.
