Very nice work Chris. I watched it all the way through and it held my
attention. Good song, good musicianship, good production/mix/mastering. Too
bad that chick is so ugly.

If you get a chance, check it out. I engineered it top to bottom, and also
did the mastering. The artist is Tonya Watts, from Alabama. The guy who
sang on the record with her, and is also walking along side her in the
video, is Waylon Payne, who is the actor that played Jerry Lee Lewis in
"Walk The Line". He's also the son of Sammi Smith, that had the hit on
"Help Me Make It Through The Night" back in '71.

I was being totally facetious about the reference to the young lady's looks.
She's got all the right ingredients, IMO. I hope this project is
commercially successful. I really liked it.

Nice, Chris. Sound right purty. Hey, he didn't look that tall in "Walk the Line" (love that movie). She must be really petite.

Anyway, good job. :)
