I haven't been here in a while but My 15th CD that was done on
Paris just came out-It's called What's Going On,The Songs of Marvin
Gaye-I have to say Paris still sounds great and the mastering
engineer was duly impressed-I don't know if I can ever get rid
of this
Peace, Jason

Congratulations Jason. You do great work. I'm about to release my debut
solo CD, done completely in Paris, and mastered at The Mastering Lab. I
hope it comes close your stuff.

Great, Jason! I'll look for it.

Seems I saw something about you running the house band at some big industry
shindig in Keyboard Mag a while back. Looked very impressive. Congratulations
on your continuing success.

Jason, You are awesome. Best of luck with the great tunes.

I still have reliability problems. Would you be so kind to paste your
paris.cfg and tell me what cpu/memory type config you use. How reliable
is Paris for you?

In fact, anyone with a reliable system, please paste your paris.cfg and
your system setup. Thanks and great luck on the new CD Jason.
