Jeremy,
Transparent or not I like it. It's top end is much sweeter
than Paris'. Fully functional in all ranges (no flabby bass)
and you can store presets. I'm new to it but like it on=20
everything I've tried so far. =20

Tom

yea. what i meant was... was anyone else under the impression the =
cambridge eq from uad was SUPPOSED TO BE really transparent.

i put it on an old track and immediately noticed a change just by having =
it inserted on the channel (geez, why does everything have to be so =
sexual these days). anyway, i never noticed it having an effect that =
way. i guess its cuz i never use it on a whole mix... i only use it on =
just about everything else.

never had much sense... but what i have i give to thee.

a biblical reference to keep the lightning from striking.

what the hell is that guy talking about?

i dunno. maybe he thinks this is the christian swingers forum.

yea... he's probably french.

yea. what i meant was... was anyone else under the impression the =
cambridge eq from uad was SUPPOSED TO BE really transparent.

i put it on an old track and immediately noticed a change just by =
having it inserted on the channel (geez, why does everything have to be =
so sexual these days). anyway, i never noticed it having an effect that =
way. i guess its cuz i never use it on a whole mix... i only use it on =
just about everything else.

never had much sense... but what i have i give to thee.

a biblical reference to keep the lightning from striking.

what the hell is that guy talking about?

i dunno. maybe he thinks this is the christian swingers forum.

yea... he's probably french.
