I need a bundle consisting of the Black Mec Box with 2 ins and outs, Plus at least 12 inputs. Don't care about 'Out' I am using an old Windows 98 computer, if that matters. I have EDS cards in my computer. Only the outboard gear was stolen.

I would like the gear as little used or new ish as possible. So I am not looking for anything with a lot of use.

I could also use some pre-amps and assorted studio gizzmos

Call me please at: 615-924-6768

Steve

Hi Steve,

I've got three MECS available, in excellent condition.

See my equipment ad in the forum.
