[View Forum Message](#) <> [Reply to Message](#)

I'm coming to the opinion that the EDS compressor can only mildly compress.

A number of people have agreed with me. Is this true? If not then squish the crap out of this please and show me otherwise. Kill the dynamics so the volume is very even and keep the sound.

<http://tinyurl.com/rpu78>

Thanks !!! Squishy good.

I would not put it quite that way, but yes, they are not up to the level of
the best outboard gear.
