---=_linux493dd561--Hi,

I pushed the button too quick !

I have a EDS-500 card so I need the add-on card that gets the effects section
so I can interconnect other EDS cards.

Let me know if you have one for sale.

Regards,

Dimitrios

M2000-\$385.00<http://www.3daudioinc.com/3db/showthread.php?t=15900>

IIRC, Brian T and John Macy both have these. The following is for sale, if anybody is interested.

Contact me to discuss

pricing as I'm keen to sell. I'd prefer an Australian sale, although I'm
a little flexible. where applicable items are 240V.

Paris parts (condition unknown as system wasn't working):

2 x EDS cards

2 x C16's
1 x MEC
1 x 442
1 x IF-2
1 x 8 channel analog in

2 x Akai MB76 Automated MIDI patch bays (1 x 110V and 1 x 240 V)
Event 20/20Bas Monitors (Can be converted to 110/120V)
1 SM-Pro 8 Channel 19inch preamp
1 x Alesis Quadraverb
2 x ASR-10's in varying condition
1 x ART Tube MP Valve Preamp
1 x Zoom 4 channel Recorder
1 x Road Ready 88 key keyboard road case
1 x Juno-60 with road case

Cheers,
Kim.Sorry, my mistake. Email to hiddensounds@gmail.com please.

Thanks,
Kim.
