Hi Dennis... I have a pro (Blue) MEC that I have for sale (it's posted).

Let me know if you're interested... make'a'me an offaH!!!

DanHi,

Direct trade for mackie mixer-mixer , a great tool for Paris users cause it can combine your mecs' analog ins and outs for common monitoring or aux effecting.

I pay the shipping for the mackie mixer to you (which is higher than of a card) and you pay for the card to me.

Let me know.

Regards,

DimitriosDennis,

We had a deal - then you backed out when you found out that the shipping to the Netherlands via USMail, was \$105. I've tried to contact you to ask you if you still want the MEC / input card that I've got beautifully packed and ready to roll, but I haven't heard back from you.

What's going on? I kinda feel screwed here, because I've already paid to have it well-packed for the trip.

Sandy
