Stunning @Mikeaudet

Woow having the "PARIS MIXER" to implement direct Aiso monitoring... that will be just amazing and I'm positive you'll make that happen.

Man Mike, when(if I may ask) do you think approx we should expect a first trial version of the x64 bit Win Asio Driver?

Now that we're talking x64 bit, i'm super excited and can't wait to turn my MEC up.

Keep up the amazing work,

Best,

MY
