I'm looking to use an ASUS m3a32 mvp deluxe MB and I was wondering if the EDS 1000 will work in it's PCI slots? It lists 4 PCIe slots and 2 PCI slots.

<http://usa.asus.com/products.aspx?modelmenu=2&model=1930&l1=3&l2=149&l3=591&l4=0>

Specs are....

x8; or quad x8 modes

2 x PCI 2.2

Support PCIe 2.0 / 1.0 Architecture

Anybody.....
