This is one very cool plugin that a lot of folks have been waiting for.. URS

Take a close look at the EQs and the drop down box, letting you choose (ala Focusrite LM) which eq (UrS, Pultec, Neve)..Same for the compressor.. Even the input has a drop down to choose, digital, analog, Tape ips..ec.. HOT!!!

Hi DJ,
The Price is a big stinker in my opinion. Acually, I think this plugin could

help the Steinbergs(Nuendo and CuBase) and Protools.

Although you can turn off the color(analog, tape) emulations on this plugin,
Paris has enough color of it's own.
