I know you guys have done this a lot but if you don't mind, send me a link(s) of the music you have most recently recorded. I haven't really been active on the Paris users since 2000 but I have found my way back.

User since 1996. Still use PARIS everyday, track at least a solid hour of 16 tracks to it 5 days a week, recording live tv shows.

Thanks

All the stuff on the Music page was done in Paris...

Enjoy!

Mike

www.sandboxproductions.com

most stuff is from last year or before as we just moved over the winter. In the middle of a new project for another Romanian artist right now though.
