Remember the code! Okay, it's more a guideline.

raternity Life on the movie Going  
Greek), another of the songs (which I co-produced and played lead guitar and  
bass) is being considered for a VH-1 production and also, the album also got  
some play on Dr. Demento a while back.

The reason I say OMG is because .....errrr.....well.....I've done  
better work since then, but it wasn't something I'm ashmed of either and  
hey, I'm really happy for the artist as this was a comedy album and the  
songs really are entertaining. It's one of those things where the songs  
themselves certainly overshadowed the skills of the engineer.

It was a fun project and I learned quite a bit while doing it.

;o)Hmmmmm.....dang!!!! you're right!!! the pirates are killing the  
pirates!!!!!!!!!!!!

Arrrrgggghhhhh matey!!!!

(now where's my rubber parrot?)
