 an external effect on the insert and all is OK.
Basically, as far as I can tell, this limitation is only with external
hardware being used as send FX in Cubase. It doesn't seem to have any effect
on using VST plugins routed to Paris auxes.

I'll get to the bottom of this.....never fear.

Deej...and how much does that cost, an arm and a leg?

mb

give me a call or shoot me your phone #. I tried to get back to you about
that gig but apparently you never got my "e"

me money. Note though: the
Squeezebox will not be included in your above offer for the Paris system!
(that would help the sale though, I'm sure!)

Thanks!

ShawnHi Shawn,

I'm interested in the blackfaec 8-out if you don't sell the entire system.

Thanks!

Mark
