[View Forum Message](#) <> [Reply to Message](#)

I have a friend with the below scenario. What should he be looking for?

My wife will be an absolute beginner, so I am looking for a rather expensive way for her to try, best with a used instrument.

Nonetheless, I do not want to go for any of these dirt-cheap Chinese or Indian imports, as they just sound horrible and make things even harder for a beginner.

I was thinking of either Yamaha or Jupiter (and Conn or other US brands should also work). It should be tuned in Bb. Double horn with F/Bb would also be possible but would probably be more expensive.

All said, I was thinking to spend less than \$1000.

I have a lovely old H.N. White "King" horn that you could get for about half that. It needs a basic cleanup and maybe an adjustment or two as far as I can tell, being a guitar player and all.

<http://www.hnwhite.com/>

Here's a pic.

DC

Thanks. I forwarded the info to the buyer. Do you have more details on this model?

Thanks
John

Dang, I just pored over it for 30 minutes and couldn't find one.

My kid's horn teacher is supposed to be a FH gearhead. Why

don'y I show it to him and get an eval?

DC

let me know if they are inter
