I'm thinking that it's getting to be time to replace my trusty old Fostex T-20s w/ new and better sounding headphones. The great thing about the T-20s is that they seem to be almost indestructable. I've had to replace the occasional cable and other bits and pieces, but I've never blown a pair, and God knows, I've tried!

So what do you guys use? I need phones that can get LOUD without crapping out. I run them w/ a Bryston 3B into custom made breakout boxes. I have a pair of Sony 7506s that I sometimes use for cue mix, but I'm afraid they can't take the abuse that the Fostex 'phones can handle.

Thanks!
