Anyone able to tell from the specs?
http://www.gigabyte.com.tw/Products/Motherboard/Products_Ove rview.aspx?ProductID=1908

Thanks,
Pete

Did some searching of the newsgroup. As far as I can tell as long as a motherboard
has PCI v2.2 compliant slots then the EDS-1000 should be compatible. Is this
definite?

If so, then this motherboard should work.

:(

thanks anyway
