For all you folks looking for the ribbon cables for a multicard set up, I have found the place. POLOLU ROBOTICS in Las Vegas, Nv. I perform in Vegas several times a month, so I stopped by there location, and they had the 16 strand in stock for only \$3.00. They also sell online, and have a great web site, although when I just checked, cabling is sort of hard to find, but it's in there. Hope this helps someone out there, John Houston
