Hey guys!

I am trying to sell the rest of my Paris stuff.

(2) EDS Cards - \$300 (will only sell together) w/connecting cables. I'll even throw in a purchased copy of the new drivers. Mike already said I can transfer the license.

(2) 8-IN MEC Cards (Black) - \$300

The shipping will be the flat rate box, which I think is \$9.50 anywhere in the USA. USA shipping only. I am not messing with overseas shipping, so please don't ask.

The bad news is... I can only take check by mail. I do not mess with evil paypal or any online greedy money service. Sorry, but I been burnt too many times by them. Interested. here is my email: darbyohara at hotmail dot com

I'll entertain any reasonable offers... I moved onto a firewire system and no longer need Paris.
Thanks... ~ Ed
