First time I'd heard that rumour; no additional info seems to be available. Interestingly, the person who edited the Wiki article to add that info made their post from the IP of 198.95.32.195, which resolves to cli-pat-fe01.cli.creative.com.

let's see what the future brings. also the Ensoniq website no longer has any links on the images like it used to have

interesting things ahead, let's see what happens
