Subject: OT: Soft Samplers Posted by jef knight[1] on Fri, 28 Apr 2006 15:47:09 GMT View Forum Message <> Reply to Message

Hey Dudes and Dudettes...

I've got a project coming up that will neccessarily include orchestra and some other fiddly-bits that my synths won't do convincingly. So, I've gotta get a soft sampler. Having looked at a few of the sample libraries like vienna and kirk hunter, it seems to me that NI Kontakt 2 is the way to go. Now, as some of you may have guessed, I a big steinberg fan...cubase/nuendo/wavelab/etc.. but having dld'd an..ahem..."working demo"....cough, cough.. of Halion, I wasn't as impressed with it as I thought I'd be. Wasn't happy with the interface and it seemed to be pretty pretty demanding. I already \*have\* those guys in the studio, I don't need my tools to all passive-aggressive too....lol

Before I shell out any actual dough for this cookie, what's you take on the whole thing and, more importantly, on Kontact/Halion pro's'n con's.

cheers

jef
