Isn't that DJ DeeJy-DeeJ?

Or what about Snoop-DeeJ? (or Snoop Doggie-Doug? lol!)

Dr. DeeJere'?

Li'l DeeJy-yo?

DeeJy-Cent?

Black-Eyed DeeJ's?

Or you could go with with the island & Haitian guys & go with something like: "Durango DeeJ Killah"

Or perhaps the simplest & easiest way to go might just be "Tupac Sha-DeeJ"

;D

First of all, as I always say, if this is so easy then you should start producing this stuff. You'll make a pile of cash. Second, this is obviously really shit software written by someone who knows jack about hip hop since you can't even pick Bentley as the car.

My Xmas present to myself? Traktor Scratch. I'm probably going to take over Saturday nights at a local lounge/bar where I'll be doing dub, dancehall, reggae and just a teensy bit of hip hop. My first weekly music gig in nearly ten years, but I have lots of practicing to do. At some point I hope to fold a second laptop running Live for live dubbing/mixing, but I'm going to try to start simple.
