Subject: EDS Inserts on GLOBAL MASTER

Hi,

I've never noticed this before, but it seems that any EDS inserts placed on the GLOBAL MASTER, are never saved with the project?

Is this a known bug?

Perhaps it's related to the fact that my master card is card 'D'. I recently added a fourth card.

Regards,
Pete

Huh, hadn't noticed. Which version are you on?

I'm on v3.0

I've tried other cards as the Master card and the same problem persists.

Not a huge issue, but wondering if it's the same for others.

Thanks,
Pete

I have a 3 card system and the EDS plugins on the global inserts definitely save.
