 is cool with me and actually preferred.

Please take into account any shipping costs. I will ship via UPS ground unless
you specify otherwise.

Replace diespam with jaybelton to reply.

If you want to peruse my web site then you can stick music DOT before my
domain name and DOT com after it.

Take care,
Jay BeltonWhat is it? Does it work?

Like possibly many I'm 1/2 way there. Given 5 minutes I'll tell you what
key something is in every time, sometimes straight away...   would be nice
to make it instant all the time though, and I'm sure I can do it...

Where do I get me this thing?

Cheers,
Kim

Sounds. What the heck are those sounds again?

 I don't remember exactly what's on it but it's The "Voice Crystal 1" D-50
Card.

OK just checked all 3.
Two other memory cards both with factory sounds - for some odd reason.
The Voice Crystal card has a battery! Weird. Seems to be dead because the
D-550 says "illegal card." I'll go buy a new battery in the morning. Hopefully,
